Team Kitrinos would like to wish you all a very happy day full of love and peace! This year has truly been challenging. We would like to thank all of our team on the ground (doctors, nurses, translators, volunteers, management for all of their hard work, not to forget our UK operations team who work behind the scenes. Our team on the ground continue to ensure all our patients receive care over this holiday period.

Thank you to all our supporters/partners and donors without whom all this would not be possible.

We look forward to working with you all in 2021.

Team Kitrinos 😊

UPDATE WINTER APPEAL 2020:

Thank you for an incredible response, we have just received the contents for the winter packs. Here are a few pictures of your kind donations in action, our team are currently putting these together and very soon vulnerable families will be receiving them.

Thank you again for your ongoing support.

If you haven't managed to donate yet here's the link again <https://www.totalgiving.co.uk/.../KitrinosWinterAppeal2020>

Please keep spreading the word

Thank you so very much

We'd like to say a huge 'thank you' to Marthe Valle, a Kitrinos Volunteer Nurse who organised the amazing fundraising project 'Hope - Music for Humanity' (a double-CD and photo album about refugees in Camps Moria and Pipka) to support Kitrinos Healthcare! We send our warmest thanks to all who showed their solidarity to refugees in Greece by donating to this brilliantly creative project.

You can read more about it (in Norwegian!) here:

"[Kitrinos Healthcare] support many of those stuck in the camps who are trying to create a better life for their families - they are grannies, granddads, mums & dads, beautiful kids and family members far, far away from their loved ones."

Oonagh O'Keefe, alongside her GP husband Jo, volunteered with us in Camp Moria last December. As a 'Trauma Tapping Practitioner' in Moria, Oonagh provided joy to many who were living with significant mental health problems.

Although she cannot be there this year, she has set up a fundraiser and hopes to create awareness for the plight of the forgotten people we care for at Kitrinos Healthcare.

Please show your support by sharing and donating to her fundraiser! <https://www.gofundme.com/.../christmas-medical-support...>

We are delighted to announce that our Scabies Programme has been 100% successful at eradicating scabies in the UNICEF TAPUAT Centre for Women and Children. All residents of the centre were treated for scabies, given new clothes and bedding, and are no longer displaying symptoms. Sending a big 'thank you' to our amazing team of medics on the ground for making this possible!

VOLUNTEER MEDICS NEEDED ASAP!

Dear friends,

We are currently in need of volunteer doctors and nurses to join the Kitrinos Healthcare team in Greece from mid-December onwards.

Volunteers must test negative for COVID-19 within 72 hours before arrival. Quarantine is not required for those arriving before December 18th, but a 3-day quarantine period will be required after this date.

To register your interest, please fill out our no-commitment volunteer

form at: www.kitrinoshealthcare.org/volunteer.

We look forward to hearing from you!

"Some tents [in Kara Tepe, or 'Moria 2.0'] are only 20 meters from the sea and have no protection from the weather, [aid workers] said. Food is only provided once or twice each day but is insufficient and of poor quality, Oxfam said. Furthermore, there is hardly any running water, so many people bathe in the sea. Also, there is no drainage or sewage system on the site..." - Daily Sabah

Living conditions in Camp Moria were unthinkable - Moria 2.0 is even worse.

The camp is totally unprepared for the coming winter, and we fear that lives will be lost. Though we can't relocate vulnerable refugees to safer and more suitable accommodation, we can make winter more bearable for them. For £25, you can provide a family with an immune-boosting 'Refugee Winter Wellness Pack'. Please donate and share today:

<https://www.totalgiving.co.uk/.../KitrinosWinterAppeal2020>

Scabies is a serious problem amongst the refugee population, and patients often come to us with severe, infected rashes as they avoided seeing a doctor. Our new scabies programme at the UNICEF 'TAPUAT Centre for Women & Children' plans to eradicate all cases there by treating everyone - a safe practice, and the best way to ensure success. We're now half way through the Centre's population of 150 residents, and we hope to soon commence a second treatment programme in our new clinical area of Kara Tepe camp.

Dear friends,

In addition to our ongoing medical operations in Lesbos, we're excited to announce that Kitrinos Healthcare are in the process of expanding our services to meet the ever-increasing needs of the refugee populations in Greece.

We're currently having conversations with NGOs and camp representatives on the Greek mainland and islands to assess the most pressing needs. One new location will be Athens, where around 20,000 refugees are currently living, many on the streets without financial support or access to proper medical care.

We'd like to send a huge 'thank you' to all of our donors and supporters, who have allowed us to continue providing care inside and outside the new camp following the Moria fires. With a newly stocked clinic - including a donated ultrasound probe courtesy of 'Butterfly' - and a great team of staff and volunteers, we look forward to this new chapter in which we hope to reach thousands more refugees in need.

Watch this space for updates!

This little girl was born at the time Moria Camp went into lockdown due to COVID. Her mum is her only and the best source of her nutrition however she has been suffering from an infected breast for almost two months, making feeding difficult for them both. Our medical team have been providing treatment for this and keeping a close eye on both mum and baby.

They reattended this week as baby was suffering from fever, cough and frequent loose stools; with antipyretics and proper hydration she should recover, however winter on the Island has only just started. Last year every other child, and every fourth adult, with a respiratory tract infection required antibiotic treatment due to the severity. This year with the population of the camp now in provisional, and hastily built, tents and so close to the sea with no protection from the winds our team are expecting the cases to be even higher.

Since the new camp has opened there has been an increase in acute digestive disorders due to poor access to WASH facilities and insufficient nutrition, particularly in children who have been frequently presenting with vomiting, abdominal pain and diarrhoea. With a donated small portable ultrasound Dr Tomas has been able to make quick decisions when needed for acute abdominal events and act appropriately.

This week the WHO Norwegian team, who have been providing emergency, paediatric and obstetrics care in the new camp, gave our team on the ground PPE training. This helped our medics and our translators see the safest way to put on and remove personal protective equipment; for some this was their first training and for others a much needed refresher. Covid is still very much present in the camp and our team is determined to do everything we can to keep ourselves and our patients safe. A big thank you to the Norwegian team for providing the training and to everyone who has helped us

keep our PPE stocked up.

Following the fire our patient Tajik*, who is a type 1 diabetic, was only able to save one of his insulin pens. Not knowing when he would be able to access healthcare and worried about running out of this medication he decreased the dose to make it last longer. When we first made contact with him following the fire his blood sugar levels were dangerously high and out of control. Our doctor was able to supply Tajik with more of the correct insulin as well as a new blood glucose monitor machine so that he could check his own sugar levels.

During the following days our doctor stayed in touch with Tajik and he was able to send her images of his blood sugar readings so that she could adapt his insulin dose as needed due to the uncertainty of the situation at the time and the irregular access to food. We are pleased to say that Tajik's blood sugars are now well controlled.

*Name changed to protect patient identity.

Kitrinos 11 Οκτωβρίου 2020 · 🌍

It has been just over a month since the fire that destroyed Moria. The past month has been turbulent, from the terror of the fire, to the chaos of thousands of people in the street, to the hasty set up of a new camp.

Whilst providing health care before the fire was filled with challenges, after the fire it has been even harder. We have lost the clinic and much of our equipment and now face difficult and cramped conditions and as the evenings get darker we are now working past sunset with limited lighting in some tents, making our work even more difficult. Yet as we reflect on the past month we remain determined to do everything we can to provide continuity of health care to the population of the camp despite the challenges.

Transfers to the Mainland.

Over the past few weeks there have been several big transfers of people to the mainland. Whilst we welcome this and recognise it as a crucial step in the decongestion of the camp, and in improving living standards, we are also aware that there is a long way to go.

Balloons, stickers and permanent markers; the perfect distraction from scary, and sometimes painful, procedures.

Visiting a doctor or nurse is frightening for any child, but especially for children who have already been through so much. We do everything we can to make each visit as easy and comfortable as possible for our youngest patients.

Update from the Ground.

This is our current pharmacy. It may be a little more complicated than our old pharmacy shelves but we are proud to still be able to provide all of the life saving medications our patients need for conditions such as epilepsy, hypertension and diabetes. Thank you to everyone who has donated to get our pharmacy back up and running again.

Over the past few days we have seen our first rainfall in months, a sharp reminder that winter is fast approaching Lesvos and will bring harsh winds, bitter cold temperatures and rainfall to the camp. As healthcare providers we have seen the effects of such winters on the population of the camp in previous years but we also share the concern of other NGO's on the Island that this winter is likely to be the worst; the new camp in Kara Tepe is situated right by the sea giving it no protection from the elements; it is also mostly filled with summer tents due to it's rapid assembly.

Our team on the ground are working hard to ensure that we have all the equipment and medications we will need to support our patients throughout the winter months.

Legal Centre Lesbos
27 Σεπτεμβρίου 2020 · 🌐

In the three weeks that have passed since the fires that destroyed Moria refugee camp, the European Union and Greek authorities have seized upon this opportunity to further their pre-existing policy objectives. A new containment camp has been built, with financial support from European institutions and the material support of UNHCR; Member States have made and reneged upon relocation pledges; the Greek authorities' assault on those in solidarity with migrants continues, as manifested by the recent declaration that Pikpa camp - run by a local grassroots organization - will be forced to close; and the European Commission has reaffirmed its commitment to containment, deterrence and return, as stated in the new Migration Pact.

The gulf between declarations made at the European level, including the Commissioner for Home Affairs' promise of 'no more Morias', and the reality for migrants in Lesbos, could not be more stark. The new camp's orderly facade, with its rows upon rows of UNHCR-branded tents, belies its dysfunctional and fundamentally inhumane reality. The site is exposed, and vulnerable to inclement weather. Greek authorities are still conducting searches with metal detectors on site, and migrants have found bullet casings around the camp owing to the site's former use as a shooting range. There

are no showers, leaving people to wash in the sea or with bottled water. Food is still distributed just once daily, and the majority of people in contact with Legal Centre Lesvos have reported that they are hungry. The nights are growing colder, and people are sleeping on the cold ground without mattresses, warm clothes, or adequate blankets.

This situation of generalised dysfunction compounds the pre-existing vulnerabilities of those living in the new camp, including:

- A, an elderly woman, and her eight-year-old granddaughter F, who waited for three days in the new camp before being assigned a tent to sleep in. Similarly, M and his three minor siblings spent three nights sleeping in the pathways of the new camp before they were given a place to sleep;
- S, a single woman, who is now living in a shared tent in the new camp. She had previously lived in the women's section of Moria camp - which, while far from secure, offered a measure of safety to those living inside. In the new site, there is no protection of the women's area - and within the first three nights of being there, her tent had been robbed twice. When she ran out to alert police officers of the theft, she told Legal Centre Lesvos that the officers swore at her and ignored her requests for help;
- G takes strong medication to treat her complex health issues. She has to take her pills three times a day, and with food - but with food distributions only happening once-daily, she is often left with no choice but to take her medication on an empty stomach.

At present, a specified number of migrants are allowed to leave between 8am and 8pm per day, but they must register with the police and be given a ticket before doing so. There remains no official announcement on how the camp will function - that is to say, whether it will remain temporary and controlled, or permanent and ultimately closed. Similarly, there has been no announcement from the Asylum Service about when the offices in Lesvos will be re-established, and how interviews and other procedures will be conducted.

Despite the inadequate conditions in the new camp, all other accommodation options in Lesvos are under government attack. In a letter leaked yesterday, the Ministry of Labour and Social Affairs declared that Pikpa, a camp for vulnerable refugees, will be forced to close by October 15th - just twenty days from now. Last week, it was announced that the municipality-run camp for families at Kara Tepe will be closed by the end of the year. It is unclear where the residents of these camps will go; however, the government's attack on alternative accommodation sites goes hand-in-hand with its efforts to contain and isolate migrants in one space - the new camp - in Lesvos.

There remains a conspicuous absence of new arrivals in Lesvos, and illegal collective expulsions continue to be documented throughout the Aegean. Those who have reached Lesvos in the last months, however, remain in health quarantine sites at Megala Therma and in the municipality-run camp at Kara Tepe. Many of the new arrivals have been held there for over forty days, and are yet to be registered as asylum seekers. They have been told that they will be moved to the new camp, but there is no clarity as to when that will happen.

Furthermore, authorities have made no effort to identify vulnerable people presently in the quarantine sites - which include tens of unaccompanied children, as young as twelve years old, who are currently residing with unrelated adults and without any child-specific protection or support. It has been announced that vulnerability assessments will not take place in the new camp - effectively denying those entitled to procedural or reception guarantees (according to Greek law 4636/2020, and the European asylum acquis) the ability to access their rights.

The Greek authorities' pursuit of detention continues, despite the ongoing COVID-19 pandemic and the associated global call to end the detention of migrants and asylum seekers. Over thirty people who were formerly detained in Moria camp's pre-removal centre, PRO.KE.K.A, have been apprehended by authorities and transferred to a detention centre in mainland Greece, in Xanthi. There are still no official deportations taking place, and police stated that their transfer was for practical reasons (owing to the lack of detention capacity in Lesvos) as opposed to facilitating their deportation - which is, for many, the sole reason stated for their detention.

Despite this challenging context, the Legal Centre Lesvos has seen several positive outcomes in the last weeks. Two individuals, who were supported by Legal Centre Lesvos prior to their interviews, have been granted refugee status. Our team has helped three unregistered, unaccompanied children, who were sleeping on the roadsides following the fire, to register with authorities, and all have now been transferred to a safe shelter for minors. In addition, we supported one separated child to access the same facility.

M, a fifteen-year-old unaccompanied child from Syria, has been accepted for family reunification and will travel to Germany to join his uncle. His case was submitted outside of the Dublin Regulation's strict deadlines, owing to long delays in his registration as an asylum seekers and the lack of legal or child-specific support offered to him. However, with the support of the Legal Centre Lesvos, he made a request under the discretionary articles of the Dublin Regulation (Article 17.2 of EU Regulation 604/2013), which was ultimately accepted this week.

The Legal Centre Lesvos also worked with [Equal Rights Beyond Borders](#) to litigate the case of A, a single mother from Afghanistan with two minor daughters, whose application for family reunification under the Dublin Regulation was rejected. Her son, who lives in Germany and is just twelve years old, holds a ban on deportation as opposed to a positive grant of international protection, a technicality which excludes him from family reunification under the Dublin Regulation. Equal Rights Beyond Borders took the family's case to court - and won, meaning that A and her daughters will be able to join their son/brother in Germany!

Given European institutions and Member States' ongoing offensive against migrants' rights, successes such as these feel particularly powerful.

Photo credit to AK, current resident of the new camp, who shared this image with Legal Centre Lesvos.

Even the smallest wound can become infected due to dirt; the unsanitary conditions in the camp cause a lot of wounds to become infected quickly. At our old clinic we were able to provide a clean environment to treat and dress these wounds, unfortunately this has been harder to achieve in our new wound care tent due to the dust and the wind.

Despite the challenges, our team are working hard to protect our patients and establish as clean an area as possible to prevent infections.

New camp, same story.

Temporary shelter and access to basic resources were indeed priorities in the wake of the fire which destroyed Moria. Our volunteers are now working hard to ensure chronic disease management and wound care are not interrupted by the basic facilities of the new camp. However, we remain concerned that the new camp does not provide a long term solution for the thousands of vulnerable refugees inside. We urge the EU to act now in decongesting the Aegean islands.

I'm Azita and I'm from Afghanistan.

I lived in Moria camp for 1 year 3 months with my family, and you cannot imagine how difficult it is for people to live in a place like Moria. I think one important thing is missed in this world, and it's humanity.

You know what makes me survive in Moria? Helping other refugees that need my help. What makes me happy is the Kitrinos health care clinic; it gives me hope to think positively about my future, just through helping refugees and seeing their smile that I helped.

Humanity is alive in the clinic because we always think about the patients. No matter if you are a doctor, nurse, or interpreter, our main goal is the same in the clinic; help those who need help.

It's a shame that this woman is just talking nice, but acting otherwise. In march she praised the greek government as "Europe's shield", saying nothing about all the violations of human rights by this government, saying nothing about the rightwinged riots. That pathetic!

23 Σεπτεμβρίου 2020 ·

Latest news from the ground:

A WHO mission from Norway is now providing emergency and obstetric services inside the new camp. Kitrinos is providing wound care and the much-needed chronic care and medications such as insulin and antiepileptics.

In a corner in a dusty tent without electricity, and with a few boxes of drugs, we do everything we can to ensure continuity of health care.

Of 7000 tests carried out so far in the new camp, 234 positive Covid-19 results have been returned. The facilities in the new camp are entirely inadequate to safely contain the spread of Covid-19. There is no running water to wash or clean clothes, and social distancing is impossible.

Whilst we will continue to support this vulnerable population where we can, Kitrinos urgently calls for the evacuation of refugees from these atrocious conditions.

My name is Khaled, a refugee in Greece.

I want to tell you something. As an asylum seeker in Moria camp for a year and a half, I left the camp at the beginning of 2019. When the Corona pandemic began, I was trying to help in any way, but I was only able to come to the island and give help verbally and help as an interpreter.

You've seen how important it is to give the help you can provide in life; I will send a message to the world. We at Lesvos want your help to continue our work with Kitrinos, especially in these difficult situations on the island, we need your support today more than ever.

Offer help today for whoever needs. You do not know. You may need help in the future. Then you will find someone to help you, because in the past you helped people you do not know.

Thank you so much.

My name is Solomon I am one of the refugees in Moria camp

my name is Solomon, I am one of the refugees in moria camp.

I would like to tell you something; nobody has chosen to leave their country for no reason and come here. Everybody has their own reason for coming here. Today it's us, tomorrow we never know, maybe it will be you. Please, we need your help, now is really a good time, don't hesitate.

Don't leave all this heavy weight to Greece, it's impossible, on their own they can't do anything. Please, try to find a solution very fast, don't take long, the people they are here, they cannot stay longer here outside without any support.

Thank you

For those in the UK who would like to help, please consider supporting our partner Choose Love's urgent call for hygiene products to be collected in the UK and sent to camps in Greece. In addition to the items listed here they are also collecting sanitary pads (not tampons), which many women in the camps are in desperate need of.

URGENT CALL

Following camp lockdowns, COVID-19 outbreaks, and the devastating fire in Moria camp, the need for nappies and other hygiene supplies in camps across the country has never before been more urgent.

HOW TO HELP

Donate items on the weekend of 03/04 of October at your nearest drop off point.

If you are able to get together with friends, family and neighbours and pool supplies and logistics that would be incredible.

ITEMS NEEDED

- 👶 NAPPIES
- 🪥 TOOTH PASTE
- 🧴 ROLL ON DEODORANT
- 🧴 SHAMPOO
- 🧴 SHOWER GEL
- 🧴 BARS OF SOAP
- 🧴 DOUBLE-LAYER FABRIC WASHABLE MASKS

LOCATIONS

Aberteen City	Colwyn Bay	Larne/Whitehead	Edinburgh

COLLECTING DESPERATELY NEEDED HYGIENE ITEMS FOR GREECE.

Help us provide nappies, hygiene essentials and reusable face masks to people living in refugee camps across Greece.

Following camp lockdowns, COVID-19 outbreaks, and the devastating fire in Moria camp, the need for nappies and other hygiene supplies in camps across the country has never before been more urgent.

Please help us get these supplies to where they are most needed by donating items on the weekend of the 3rd and 4th of October at your nearest drop off point. If you are able to get together with friends, family and neighbours and pool supplies and logistics that would be incredible.

To find your nearest drop off point, visit - <https://helprefugees.org/news/october-collection/>

Thank you so much to all our friends and partners across the UK who are opening up their collection points to make this possible

Khaled, Azita, Solomon.

As healthcare professionals working in the field we simply cannot do our jobs without our amazing interpreters. They bridge the gap between us and our patients, enabling us to communicate in Arabic, Farsi, French, and Lingala.

We can't thank our interpreters enough for their tireless efforts to work with us through the current turbulent times; whatever our latest location, shift pattern, or clinical need is, they are always there.

Over the next few days we will be shining the light on this amazing trio and hearing from them about their experiences - so stay tuned for more!

Thank you to @unicef for inviting us back to provide medical care in a safe space for a group of highly vulnerable refugees in the wake of the fire. Kitrinos has enjoyed collaborating with UNICEF for the past two years. Today we treated unaccompanied minors as young as 11, who are awaiting transfer out of Lesvos, and women travelling alone with young children.

Kitrinos has always provided care for patients with chronic health problems such as diabetes, hypertension and asthma. Since the displacement caused by the fire, we are working hard to find our most vulnerable patients and re-supply their medications. Here is Nurse Eirlys and Medical Assistant Linda at one of our mobile clinics checking patient records to make up medication supply packs.

The tragic story of three girls who lost their parents on their escape from war in Syria. In this 1-min clip Dr Asif explains the desperate situation many children, young people and elderly were in even before the fire. Free healthcare has never been more needed than now to preserve the lives and health of the vulnerable refugees. You can watch today's full live stream video on our page.

Scabies - In this 20 second clip our nurse Sofia talks about her first ever encounter with the skin disease scabies. The poor sanitation conditions at Moria caused this type of infectious skin disease to spread - especially amongst young children. Without people like Sofia working to treat scabies at Moria, where would the refugees get help for this?

Support Team Humanity and Greengate Trust.... they are action people.... they get the job done!

Salam Aldeen

15 Σεπτεμβρίου 2020 · 🌐

Update day 6

Today we made some activities with these beautiful children and they were so happy, it's so sad to see that these children are going through all this, they are traumatized, children are the future of this world, who knows maybe one of these children will be the person who found the cure for cancer, what I am trying to say is that we should do everything we can minimize the bad experience they are going through.

We distributed as always food, water, fruit to our guests and other people outside our area, and today amazing teams from [Greengate Trust](#) and [All 4 Humanity](#) helped with preparing food and distribute it and also sleeping bags, thank you so much guys it was a pleasure to have you with us, and beautiful work you did.

In the end everyone was happy and people start smiling and children being children.

Everyone is so thankful for all the help we got from different people and from different places in this world. Don't forget that we are the only ngo that are sheltering over 500 people, and we have most vulnerable cases, injuries from war, disable, pregnant, newborns, heart problems.

Thank you to everyone who have been supporting us, without you we couldn't have done it.

But we still need to continue until there will be a solution for these

people and it's not to put them in a worse camp than Moria.

Dr Asif volunteered with Kitrinos last year. He joined us in the aftermath of the fire this week to share his experiences of the families and young children he met during his time there. Hear more about the humans of Moria in this one minute clip. The full livestream video is available to view on our Facebook page Videos section.

Greek authorities are in the process of building a new camp for refugees on Lesbos. Refugees fear it will be a closed camp. Those made homeless by the Moria camp fire were protesting for freedoms earlier this week.

Online event

MORIA EMERGENCY - What can be done to avert a humanitarian disaster ?

Please join us for a challenging and critical discussion about how best to raise awareness and support the 13000+ refugees in Europe who lost their very basic homes in the raging fire of September 9th at Moria camp, Lesvos.

Updates from the ground followed by Q&A and panel discussion by our panel of experienced humanitarian clinical volunteers all of whom have served in the camp:

Dr Siyana Mahroof Shaafi (Humanitarian GP & Founder of Kitrinos Healthcare, London)

Dr Asif Ali (GP & Humanitarian Doctor, Slough)

Ms Helen Zahos (Humanitarian Nurse & Paramedic, Australia)

Dr Christian Harkensee (Consultant Paediatric Infectious Diseases, Newcastle / Disaster Relief Doctor)

Join us on Kitrinos Healthcare Facebook page at the event start time. Please donate below:

9 Σεπτεμβρίου 2020

Last night hell on earth was ablaze. It's a hell I know, it's a hell I've smelt, touched, witnessed and thankfully, due to nothing but luck, it's a hell I've never lived. As the media picks up the story of the Moria fires and the cancer that is the growing far-right sentiment begins to spin the facts to suit their agenda, I implore you not to jump to conclusions about those yet again forced to flee.

Talk and listen... talk to those who have been there, talk to those who have lived it... talk to those currently living it. I want to share some of the stories of those I met in Moria in the hope that if anyone I know hears people talking about those arriving in Greece in a way that's derogatory, racist or simply untrue they can correct them.

I met a mother and her two teenage sons. They arrived in Moria late at night, the sons were desperate to find somewhere for their mother to sleep. There were no tents left, I showed them a piece of tarpaulin we found and a tree to hang it over. Without saying a word, the boys attempted to make a makeshift shelter. The mother had brought with her, her sons, the clothes she had and grabbed a Burberry Mac and a designer handbag from what was left of their home. One son told me she'd taken those items in the hope that wherever they ended up she'd be able to sell it to help with their education. I remember how surreal it looked, her folding the coat and putting it into the bag against the backdrop of a blue tarpaulin in Moria and what glamorous wardrobe she'd plucked them from thinking of what she could sell as they fled.

I met two brothers, from Afghanistan. The boys were Hazare and

had witnessed half of their classmates slaughtered at the hands of the Taliban. Their mother didn't have enough money for them all to get out of Afghanistan and so had sold everything she had so her sons could make it to safety. The eldest had learnt English on YouTube and translated for the doctors in Moria as they worked. They were so alone, terrified and totally in shock. I remember they'd never had ice cream and one night we bought some from a local tender. The look on the youngest's face as he ate it will stay with me forever ❤️

We met an incredible group of ex-NATO translators. They arrived and when they saw the horrific medical need and realised we were desperate for translators, instead of continuing their journey they stayed and helped us for as long as they could. With nowhere to sleep but the sodden ground, they helped us day and night and saved countless lives. They explained over hot tea in plastic cups that one night, when the US troops had withdrawn, they'd been targeted by local Taliban and had been forced to flee leaving behind their parents, studies and everything they'd known.

I met two daughters and a father. They were silent with shock. Fleeing Hommes in Syria, their mother had drowned on the crossing to Greece. The father, in total and complete shock, had become unable to communicate and the girls called out for mama day and night. The girls were around 4 and 6.

There are hundreds and thousands of other stories... 13,000 owners of such stories are currently fleeing another hell in Moria as the fire has ravaged the entire camp and far-right fascists are preying on those who've fled. Our governments have failed to act after years of people advocating and explaining that this was always inevitable. Camps are never the solution. We need long-term sustainable approaches to forced migration but they are not going to appear if the world stays silent.

These solutions will only come about as a result of a movement, of people, of pressure on governments, of votes. A movement of empathy for our fellow human beings and an understanding that there is no 'us' and 'them' only luck that one person is born in one place and another in another. We are them, they are us. - Anna

Thousands of vulnerable asylum seekers residing at the Moria Central Hospital will be accommodated on a Blue Star Ferries ship that is expected to arrive today in the port of Mytilene and on two naval barges that will go to the island tomorrow, as announced in the interview with Interior and the president of EODY a while ago in Lesvos.

The rest of the approximately 3,500 homeless asylum seekers will reportedly be housed in tents sent from other parts of the country, which will be placed in areas of the KYT that were not affected by the fire and in third places that will be indicated by local government.

As the residents of Moria Camp weren't allowed to stay anywhere near the camp or in nearby towns, many slept on the curb of a highroad. This is NOT acceptable. This is heartbreaking. Not in Europe. Not anywhere #humanity #safety #humans #Lesvos #Lesbos #Greece

This picture was taken a couple of hours ago. All our team, including the interpreters and their families living inside Moria have been evacuated to our volunteer houses. We sadly have lost over half of our equipment in the clinics. The roads are blocked and the team are driving around trying to find the people who are on foot between Moria and Karatepe.

We have devastating news that serious fires broke out in #CampMoria early this morning. We don't yet know the extent of the damage, but multiple areas are in flames, at least 9 fire engines were called out, and many refugees are fleeing the camp. Thankfully our team are safe.

We will update you when we can, but meanwhile, please keep #Moria and its 13,000 residents in your thoughts.

This dry river bed in Camp Moria, a 'dumping ground' for rubbish due to the lack of waste facilities, is home to infestations of giant rats. Moria residents - including children - often come to our clinic with rat bites. We treat these bites with antiseptics and antibiotics as necessary to prevent infections and the dangerous 'rat bite fever'.

We rely on public donations to support our work on the ground; last year, around 70% of our funding came from your donations. Please help us keep our clinic open by donating today:

www.kitrinoshealthcare.org/donate.

totalgiving.co.uk/appeal/covid19campmoria

The first case of COVID-19 has been confirmed in Camp Moria. Within 10 days, this deadly virus could sweep through the overcrowded refugee camp, with devastating consequences for the 15,000 vulnerable people trapped there.

We need URGENT FUNDS to keep our clinic doors open and purchase vital medication and equipment.

PLEASE DONATE:

- £1 - reusable face mask
- £2 - asthma inhaler
- £5 - one course of antibiotics
- £10 - emergency first aid kit (inc. hand sanitiser)
- £20 - spaced device for breathing / PPE suit for clinician
- £45 - one non-contact thermometer
- £900 - portable oxygen concentrator.

Please DONATE TODAY and SHARE with your friends, family and colleagues. We can't continue without your support!

Thank you all,

'Team Kitrinos'

"During my recent trip to Moria, I met a woman living in the 'Olive Grove' section of the camp. A mother of five, she was still breastfeeding one of her children. She had several lumps over her body, one of which was under her arm: a 'red flag', as it can indicate cancer. We performed an ultrasound in the clinic and referred her to a specialist. As in the UK, we implement a maximum two-week period from when an issue is presented to us to diagnosis. It is extremely important to us that our refugee patients receive the same kind of high-quality care as patients receive in the UK."

Dr Siyana Mahroof-Shaffi, Founder & Director of Kitrinos Healthcare, September 2020

2 Σεπτεμβρίου 2020 · 🌐

Our worst fears have become a reality today, as the first case of Coronavirus has been confirmed in Camp Moria. This has followed a sudden rise in cases on Lesbos Island, with over 100 cases confirmed in the past two weeks. The single hospital on the island is already overwhelmed, with all 6 ICU units filled, and new emergency ICU units are currently being prepared. However, if the virus spreads through Moria, this will not be nearly enough.

Our team on the ground are doing all they can to continue to care for refugees in Moria. We are on high alert to recognise anyone coming to the clinic with symptoms. We have split up into two groups to ensure social distancing measures are adhered to and reduce the likelihood of infection. This also means that if members of one group are affected, the other team can take over.

Right now, we need your support more than ever before to keep our on-site clinic running at full capacity. We are one of very few medical bodies currently on the ground. Please DONATE NOW via totalgiving.co.uk/appeal/covid19campmoriam to help us provide vital healthcare to refugees in Moria, and share to spread the word

...narrative to refugees in media, and share to spread the word.

Thank you.

In the beginning of August, a 7-year-old boy with a bloodied arm found our clinic with the help of some of his peers. His mother arrived shortly after, unaware of the accident which had occurred while her son was playing with friends. We are running low on PPE gowns, masks and dressing material which allow us to provide safe and optimal care for our patients in Moria camp. With cases of COVID-19 slowly rising in Lesvos, we must do all we can to stop the virus from reaching those trapped in Moria.

Please DONATE NOW to our COVID-19 Emergency Appeal to help us protect the vulnerable men, women and children in Camp Moria. If you can't donate at this time, please SHARE this far and wide!

8 Αυγούστου 2020

I've been working with [Kitrinos Healthcare](#) for several months and I have seen how psychiatric and psychological support are a cornerstone for the well-being of the refugees living in inhumane conditions in [Moria Refugee camp](#).

Unfortunately there's a huge lack of staff in this area (there are currently two of us working inside the clinic...) so if you are a psychologist, psychiatric nurse, emotional coach or have a background in psychological first aid and you are interested in working with refugees (2 months minimum stay), you can reach out to: volunteer@kitrinoshealthcare.com.

We will be very grateful to have you in the team, your work is very much-needed.

We at Kitrinos Healthcare welcome European politicians taking an interest in Moria Refugee Camp. It is simply impossible to appreciate the extent of the tragedy in Moria without seeing it in person. With Covid-19 still looming on the island we hope that Armin Laschet's brief visit will bring more attention to Moria amongst German and European politicians.

Only 2 days left to Eid. Eid ul-Adha will be celebrated by Muslims all around the world in a few days' time, but for thousands of refugees trapped in filthy and overcrowded Camp Moria, this sacred holiday is set to be as joyless as any other day. We want to give refugee families the chance they deserve to celebrate Eid ul-Adha this year. We'll be distributing nutritious food, clean Islamic clothing and sweet treats for kids. Please donate today via this link

<https://www.totalgiving.co.uk/appeal/eiduladha2020>

Our Interpreters - who are refugees themselves - are an essential part of our team on the ground. Without them, our doctors and nurses would be unable to communicate with our patients, and our work would be impossible.

We provide daily meals to our refugee interpreters to keep them going throughout the day, which means they don't have to spend hours waiting in camp food lines for sub-standard meals (which are usually just potatoes in tomato sauce).

Please donate to our 'Meals for Interpreters' Appeal so we can continue to care for these hard-working and vital members of our team!

**Daily meals for our
refugee interpreters**

28 Ιουλίου 2020

We are anticipating a second wave of Covid-19 on Lesvos Island as there have been several new cases in recent weeks. If the virus were to hit the camp the consequences would be disastrous despite our efforts.

Help us protect vulnerable refugees by donating to our Emergency Coronavirus Appeal at www.totalgiving.co.uk/appeal/covid19campmorja.

Thank you.

Only 5 days left- Eid ul-Adha will be celebrated by Muslims all around the world in a few days' time, but for thousands of refugees trapped in filthy and overcrowded Camp Moria, this sacred holiday is set to be as joyless as any other day. We want to give refugee families the chance they deserve to celebrate Eid ul-Adha this year. We'll be distributing nutritious food, clean Islamic clothing and sweet treats for kids. Please donate today via this link

MedGlobal

15 Ιουλίου 2020

IDLIB, SYRIA: Doctors from the Bab al Hawa Hospital in Idlib, near the Turkish border, are expressing solidarity with healthcare workers who have tested positive for COVID-19.

Read more about the situation in #idlib and MedGlobal's response here: <http://ow.ly/oaqk50Aypjv>

Signs read, in red, "Stand in solidarity with the medical staff who are infected with Coronavirus."

Other text reads, "When you leave the house it is necessary to wear a mask. Take care of your safety and the safety of others," and "Staff of Bab al Hawa Hospital ask God for safety for you all."

A 78 year old woman was found hungry and in pain while waiting to have a wash in queue. The earliest hint of a pancreatic cancer was discovered in our clinic on our portable ultrasound machine. This was later confirmed to have spread all over her body. We began palliative cancer care, strong pain relief, nutritional liquid supplements and most importantly advocated for her and her immediate family of five to be transferred out of the horrific camp to a place where they had one

shower and toilet for their own container #refugeecrisis

Please get somewhere for this woman to die in peace with her family to care for her.
If you only do this today, she needs a place of comfort in her last days 😞

We were very sad to hear that violence is escalating again in the camp, after a period of calm during the pandemic scare. A resident lost his life in a fight last Sunday. May he rest in peace.

At Kitrinos we offer a nurse-led Wound Care Service. This is due to the scarcity of basic necessities like running water, clean living spaces & to the lack of basic self-care equipment like bandages and disinfectant

People in the camps have experienced traumatic events, have lost or

been separated from family and friends and all are uncertain about their future during the difficult asylum process. Hence there are high levels of depression, anxiety and Post Traumatic Stress Disorder both in adults and children. #trauma #stress #mentalhealth #refugeecrisis #refugee #refugees #ptsd #refugeelife #wecare #safety #humanity #stayhuman #campMoria #lesvos #greece #depression #anxiety #future #teamkitrinos

Eid ul-Adha Kids' Card Competition: The Winners!

We are delighted to announce the winners of the first ever *Kitrinos Healthcare Eid ul-Adha Greetings Card Competition!*
We send our warmest congratulations to:

1st Prize - Zaina, aged 14, from Bangladesh.

2nd Prize - Najira, aged 12, from the UK.

We were so impressed by these beautiful works of art, and indeed by the efforts of everyone who sent in their lovely drawings.
The 1st Prize-winning design will be featured on a *Kitrinos Eid Greetings Card*, which will soon be available in our online shop.

Thank you again to all the wonderful young artists who took part!

—Team *Kitrinos*

WE ARE RECRUITING: NURSES & NURSE PRACTITIONERS

Dear friends,

We're currently in need of DEGREE-QUALIFIED NURSES who can give 3+ months of their time to work with #TeamKitrinos in Camp Moria, Lesvos.

Successful applicants will be working in three areas:

- our main medical clinic, where we treat acute & chronic conditions
- a paediatric clinic
- a COVID-19 'Isolation Unit' (note: there are as yet no cases of Coronavirus in the camp).

Stipends are available during the pandemic period (up to €1,000 per month). We can offer free accommodation and transport, and during July only, we will also be able to reimburse flight costs.

As we anticipate the possibility of a second wave of the Coronavirus, it is more important than ever for us to have a full team of medics so we can screen our patients and care for those in need.

Register to join #TeamKitrinos today at: www.kitrinoshealthcare.org/vacancies.

Thank you!

Hey UCL! Don't forget you can sign up for our virtual pub quiz on 8 July too. You can find out more on our facebook page and you can sign up with your team of up to five people here:
<http://ow.ly/W3ez50AdhzA>

Don't have a team? Not to worry! We'll arrange one for you. Just sign up, grab yourself a pint (as long as your of age) and enjoy yourself! We also would love for you to donate to our fundraiser for Kitrinos Healthcare here:
<https://www.justgiving.com/crow.../laugh4changefundraiser...>

We're sorry we won't be able to put on shows for a bit, but we look forward to the day we can with our wonderful campus rep, Alice! Alice recently joined L4C because L4C gives her the opportunity to do more comedy for a cause she really cares about! When asked about our shows, she said, "Comedy shows like ours have such a significant and positive impact on people's mental health, which is especially important at uni when it's so easy to feel all-consumed by work." We couldn't agree more, Alice! Did you also know that Alice can also play a mean mouth trumpet? Alice might just have a show booked in the future with a talent like that!

'When I came to this new country I had so much pain in the heart [...] that I thought I was having a heart attack'. These are Kamal's words, an ex- Moria resident now settled in Europe. He volunteered as an interpreter from Farsi for KH and was with us until April 2019. With the help of Trauma Tapping, a technique Kitrinos Healthcare teaches at regular workshops in the camp, he managed to overcome his anxieties and the pain in his heart eventually disappeared. He is now doing a preparation course to study Engineering #refugeecrisis #refugees #successtories #moriarefugeecamp #interpreters #europe #traumatappingtechnique #teamkitrinos #empowerment #savelives #wecare #SOSMoria #healthcareforrefugees #healthcare

We collect on-date medication in south London and Chelsea area. We send it to Moria Camp with our volunteers. It costs us about 50£ to do this as we buy a new piece of luggage each time and pay about £25 to check the luggage on the plane. You could help us by donating medication you no longer need or just donate any amount towards our Covid Appeal [#healthcare](#) [#medicalcare](#) [#wecare](#) [#medication](#) [#paracetamol](#) [#ibuprophen](#) [#prescriptionmedication](#) [#doctors](#) [#pharmacists](#) [#chemists](#) [#moria](#) [#lesvos](#) [#donate](#) [#covid19](#) [#corona](#)

Björn Hedström
After working one week under his "protection" in Moria, I must say I'm impressed. He is so calm, effective and polite even though there are hundreds of questions from us "rookies" all day long and a 500 patient long que outside. I was there the first week with corona. The weekend Italy went into close down and still, Abdulhami just kept on conducting us doctor at Kitrinos like a master.
He will be a dream to employ for any hospital and will mean a lot to all patients he will meet in the future. If it weren't for the closed borders for Swedes during COVID-19 I'll be joining you again soon.

Dear friends, today is the first day of #refugeeweek - 'UK's largest

festival celebrating the contribution of refugees and promoting understanding of why people seek sanctuary'. There are many arts & cultural events and activities which you can join via their website: www.refugeeweek.org.uk.

To help Kitrinos care for and protect refugees trapped in Camp Moria, please donate to our Emergency COVID-19 Appeal: totalgiving.co.uk/appeal/covid19campmoriam

Thank you.

MedGlobal has kindly donated PPE, medication and other equipment (including infrared thermometers) to help us look after the refugees who come and see us at the clinic. We often treat infected wounds. It's incredibly difficult to keep wounds clean, given the scarcity of water and the poor hygiene conditions #healthcareHeroes #doctors #nurses #refugees #SOSMoria #Moria #Lesvos #humanity #wecare #ngo #volunteer #RefugeesWelcome #safepassage #teamkitrinos #support #foracause #refugeesupport

Before 2015 Moria Camp used to be a military training centre. With the worsening of the refugee crisis, the Greek government offered to temporarily house about 3000 people in this space whose size is about 1sq Km. Today Moria Camp hosts more than 20 thousand refugees

This time last year Dr Siyana, Zanjabeel and Shakirah made the annual "last ten days" of Ramadan trip- where donations of cash and supplies were given to individuals by hand. Sadly because of the pandemic - we were not able to physically visit the camp this year. However - our work continues. Our diligent ground team co to use to deliver for the day by day needs of at least 18000 people who still remain stranded on the island of Lesvos...

Zanjabil Qureshi

11 Ιουλιου 2018 · 🌐

Day 6~ From Tooting To Lesvos ~ One of our (Siyana Mahroof and Sharon Rowe) key missions for the trip was to distribute the hijabs and 1000 abayas that we took with us from London in time for Eid. In order to achieve this, we visited the The Hope Project warehouse in the south of Lesvos. The warehouse serves the refugees trapped in Moria detention centre and aims to provide essential supplies to those in need, clothes, shoes, warm coats, blankets and sleeping bags, shampoo and soap, tooth brushes and tooth paste, underwear & bras, female hygiene, diapers, towels, socks, hats and gloves, toys and games and so much more.

A message from the hope project:

A massive thank you to all those who support us with donations and supplies.

We are not an NGO (non governmental organisation) and receive no financial support from governments and are only supported by people with big hearts. Please we need your help to continue our work, we couldn't do this without your help!!! xx

Since March, for Moria camp population, medical actors are collaborating with Greek health authorities to detect early, identify and treat people with symptoms that can be associated with COVID and suspected COVID 19 cases. This has been done through a reshaped triage system in [Doctors Without Borders/ Médecins Sans Frontières \(MSF\)](#) clinic, a new adult triage area for adults and the new MSF Inpatient medical unit in the proximity of Moria where people showing mild symptoms are tested, isolated in a safe space and provided with appropriate care. As Kitrinos we are supporting this initiatives and collaborating with MSF and the Greek health authorities through the work of our doctors and medical staff. This response can only mitigate the risks but with the easing of the lockdown in Greece there is a serious chance of COVID19 reaching Moria camp. It is extremely important for us to continue to be prepared and adopt all the measures possible to address refugees' medical needs and try not to burden the Greek healthcare system. [#doctorswithoutborders](#) [#kitrinoshealthcare](#) [#wecare](#) [#moria](#) [#moriarefugeecamp](#) [#lesvos](#) [#covid19](#) [#coronavirus](#) [#corona](#) [#together](#) [#refugeecrisis](#) [#refugeecamp](#) [#healthcare](#) [#medicalcare](#) [#isolation](#) [#greece](#)

We collect on-date medication in south London and Chelsea area. We send it to Moria Camp with our volunteers. It costs us about 50£ to do this as we buy a new piece of luggage each time and pay about £25 to check the luggage on the plane. You could help us by donating medication you no longer need or just donate any amount towards our Covid Appeal [#healthcare](#) [#medicalcare](#) [#wecare](#) [#medication](#) [#paracetamol](#) [#ibuprophen](#) [#prescriptionmedication](#) [#doctors](#) [#pharmacists](#) [#chemists](#) [#moria](#) [#lesvos](#) [#donate](#) [#covid19](#) [#corona](#)

Ailsa McIlwaine
Kitrinos Healthcare if it's going as medical aid some airlines will waiver the fee for baggage if asked, sometimes takes a few phone calls. It just often has to have a letter inside explaining. I've done this with supplies at least 3 times with different airlines. Just in case you were not aware!

Team Kitrinos
Hi **Els Peartree**, thankfully there have so far been no cases in the camp, although there have been cases in Lesvos and across Greece. This post mentions the possibility of a global second wave (which could reach the camp), rather than a second wave specifically within Moria - apologies if it's unclear!

A Refugee

A beautiful poem written by Saviini aged 16

Screams of terror hover around

As people flee to another ground

Leaving all the things they love

Leaving all the things they love
Looking for hope and the blessed dove
Once they get across the sea
They must beg down on their knee
From brothers and sisters of same but they cannot see
Men of greed are a fierce breed
They cannot see the others need
End the wars and we shall see
That there will be.... no refugee.

This little girl is putting so much care in the way she washes her hands! There are many water points in @campmorla but they are not always working, so people resort to filling bottles and washing their hands in the open #healthcare #covid19 #C19 #Lesbos #refugees #childrenrefugees

Lockdown has come with many challenges: we have been unable to transfer our patients to hospital - even in the cases of children who need surgery. This has meant that we've had to alter the way we work so we can keep caring for refugees #covid19 #C19 #healthcare #moriacamp

Dear friends,

We're urgently recruiting doctors and nurses to help us care for refugees in Camp Moria over the coming months.

We need:

Nurses for June/July

Doctors and nurses from August onwards.

Could this be you? Fill in our no-commitment volunteer form at www.kitrinoshealthcare.org/volunteer to apply.

#volunteer #KitrinosHealthcare #teamKitrinos #campMoria #refugee #refugees #refugeesGreece #refugeesgr

COVID-19

Medics Urgently Needed

Camp Moria, Lesvos

- ▶ Recruiting **Doctors and Nurses**
- ▶ Ideally available for **3+ months** from June / July / August
- ▶ **Stipend available** during pandemic period
- ▶ Some preference given to local/ Greek applicants

The Kitrinos Healthcare team work together seamlessly to take care of the physical, psychological and social needs of our patients. We try to focus on the whole person rather than simply the illness they present with #healthcare #moriacamp #lesbos #lesvos #refugees

These are recent shots of the camp. Despite the efforts of every charity present on the ground to improve the residents' living conditions, we are so far from reaching acceptable levels. So much more needs to be done.

'The threat of coronavirus has increased anxiety and led to mounting tensions in [Moria refugee] camp. There have been two serious fights in the past few days. One 23-year-old woman has died and a 21-year-old man is in a critical condition.'
