Crisis Management Association

4 Σεπτεμβρίου 2022 · 🌐

CMA would like to thank [Wir packen's an](#) for their generous and continuous support. The need for quality healthcare for refugees and migrants around the world is increasing. With WPA's support CMA was able to secure the continuity of dental, chronic and psychiatric care for refugees and asylum seekers in Lesbos, Greece. Thank you [Wir packen's an](#) for your support!

For more information about Wir Packen's An: [wir-packens-an.info/spenden](http://wir-packens-an.info/spenden)

28 Ιουλίου 2022 · 🌐

Our chronic team have been working extremely hard: we've seen an increase in visits due to new arrivals to the camp, high temperatures and complicated cases.

The hot weather has a major effect on our patients, and presents a number of challenges. Temperature-sensitive medications must be safely stored, meaning that our patients who use insulin must make more trips to the pharmacy - where we have a fridge.

We are still looking for medical volunteers for our team - please get in touch if you can help out! 🙏❤️

Anne, who was one of the founding members of CMA, is moving on from Lesvos. While she is not stepping away from the team completely, we will definitely feel her absence as she has been a critical member from the beginning and our team has gone from strength to strength under her steadfast leadership. She leads with poise, and has implemented structure in the organization which has allowed us to be measured and consistent in a chaotic setting.

@aboomsma, thank you for everything you have done for our team, and for your massive contribution on the ground here in Lesvos. You will be sorely missed, but we are so excited to see the impact you will have in your next endeavour. ❤️❤️

We were lucky to welcome Dr Robin back to the dental clinic last week, where he treated a huge number of patients.

The demand for our dental services are still incredibly high: people leaving the island are not sure when next they will have a chance to see a dentist, so they come to see our team and attend to any issues before their departure, and new arrivals often have dental issues and come to the clinic soon after they get to Lesvos.

We have not been able to keep the clinic open at all times because we don't always have a dentist available.

If you are a dentist or dental nurse and would like to volunteer in our clinic, please find out more on our website. ❤️ 🗣️

Following some changes with the organisations we were collaborating with in our central pharmacy project, we are now sole suppliers for the pharmacy.

The population of the camp is growing - we have seen more arrivals than departures, and therefore it is critical that we are able to keep up with the demand

for medication needed by our patients.

We need support to continue our work: please follow the link in our bio to donate to our operations 🍷💙

Today, we're kicking off Refugee Week 2022. This year, the theme is "healing", it centres around how community can help to heal people from painful experiences. Our organisation takes a literal approach to healing: we provide medical and dental care to refugees who otherwise would have difficulty accessing it. On top of this, our international team are a community for each other - we support each other and have ensured that our clinics are a safe space for everyone who visits ❤️🙌

We'd like to sav a huuee thank you and goodbve to Sara. who has been the

coordinator of the central pharmacy since January.

Sara has significant experience in this field, and has expertly coordinated the pharmacy ensuring the the dispensing system and stock levels are managed efficiently, in order to best serve our patients.

She has been a ray of sunshine for the team, and will be sorely missed by the CMA family 🍷💙

Without dental volunteers, our dental clinic would not be able to operate - we rely on qualified dentists and dental assistants who donate their time and expertise, while working alongside our on-the-ground team, to serve any patient who seeks out dental care in our clinic.

Dr Robin reflects on his time working in the camp: "This experience enabled me to connect with people from different backgrounds who all had the same aim, to help others. These life long connections I will cherish and maintain for many years to come."

Thank you to the dental community who are always so supportive of our work.

If you would like to get involved, follow the link in our bio! 🍷💙

Hypertension is one of the most common chronic illnesses we have seen in our chronic care clinic since the inception of our organisation.

There are a number of factors which affect a patient's blood pressure, including diet,

the weather and stress - the environment in the camp is often unpredictable, and this sometimes makes it difficult to stabilise the blood pressure of our patients.

Dr Nasos: "What we witness here it that many of our hypertension patients don't respond to the classical medication that is normally prescribed. It takes studying and patience to find the right treatment for them."

Following the devastating news which has been dominating our headlines over the past few weeks, Anne (CMA's program manager) went to Poland and Slovakia to conduct a needs assessment and determine whether our expertise would be needed in the emergency response there.

We have gained a plethora of experience providing sustainable healthcare to people on the move, and understand that our knowledge of standard operating procedures and problem-solving may be useful to those setting up and coordinating response for Ukrainian refugees.

Following extensive travel along the border, and speaking with the organisations which have already begun responding to the crisis, it was determined that at this point we were not needed at the first point of arrival for Ukrainian refugees. We will be conducting a second assessment now that there are established systems and gaps can be correctly identified. We remain on hand to provide any support, advice or resources to any organisations currently operating in the region, and will continually assess the situation to ensure that as and when we are needed, we will be ready to respond. 🇺🇦🇵🇵

We are excited to launch our first-ever Ramadan fundraising campaign. We are looking to raise money which will go towards the operating expenses of our projects on Lesbos.

Ramadan is as much about giving as it is about sacrifice, it is a time for reflection and appreciation, and "Zakat" (making donations during the last 10 days of Ramadan) is an important part of this holy month.

We appreciate any and all support from our amazing network - please visit this link ([https://www.launchgood.com/.../comprehensive\\_medical\\_care...](https://www.launchgood.com/.../comprehensive_medical_care...)) to make a contribution, and share with your friends and family!🙏❤️

We saw a decrease in the number of total visits to the medical area last month.

However, our chronic and psychiatric departments continued to register new patients.

The cold weather did not let up - meaning that our patients living in the camp were exposed to extreme conditions, and we saw a number of emergency cases come into the medical area.

We welcomed 4 dental volunteers to the clinic, who were able to treat a huge number of patients on our well-equipped clinic.

To gain a deeper understanding of the work done by CMA, visit our website through the link in our bio! 🙏❤️

## February in numbers

1510 visits to the central triage, one positive COVID case

768 prescriptions dispensed by the central pharmacy

84 patients treated in the dental clinic

417 chronic and psychiatric consultations

20 new chronic and psychiatric patients

We're shining a light on our incredible team members by introducing who they are and the amazing work that they do for us every day.

Our first team member of the week is Efi - she is a Greek Nurse specialising in pathological and surgical nursing, and heads up our chronic care team. Efi's dynamic and supportive demeanor mean that her team and patients trust her, and her comprehensive understanding of medicine and the systems in Greece ensure that our patients are guaranteed top quality care and all the access which is needed for their complex cases.

"Efi gives us positive energy, and she is always very approachable and easy to talk with" - Fahad, Arabic Interpreter

We'd like to say a huge thank you to Efi for all the great work you're doing, we are so lucky to have you in the CMA family! 🙌💙

Today, 11 February, is recognised as International Day for Women and Girls in Science.

We have incredible women on our team, who take amazing care of all patients who make use of our services. We believe that equal opportunities are paramount in any organisation, and we are proud to have a female-dominated team carrying out our projects in Lesvos.

At all levels of our structure, we have women performing key roles - this gives us an advantage in understanding the needs and experiences of our patients, and provides an example of representation for what careers in STEM are open to women for the young girls who see our work.

If you would like to support our projects, or learn more about our work, please reach out by using the link in our bio 🙌👍👍👍

January was a challenging month for our team - the harsh weather created even more difficult conditions for our patients and team. Despite this, we continued to provide excellent quality care to our patients.

A number of new arrivals to the island were seen, and new chronic patients were brought under the care of our team of doctors - constant monitoring of chronic diseases is vital to ensure that people's conditions do not become unstable.

We would like to say a huge thank you to all of our donors and partners whose support enables us to carry out this important work ❤️🙏

**January recap**

- 1662 visits to the central triage, with only one positive COVID-19 case
- 1527 medications dispensed by the central pharmacy
- 414 chronic consultations
- 114 psychiatric consultations
- 20 new chronic and psychiatric patients

These photos are from our incredible partner **Crisis Management Association** who focus on meeting healthcare related needs of refugees, asylum seekers, forcibly displaced people and their host communities.

Currently operating in Lesbos, they provide paid jobs to Greek healthcare specialists, refugees and asylum seekers. Empowering both groups to take leading roles in their operations.

CMA are support the area of Lesbos by coordinating medical support through

the Chronic care and Dental Care clinics. Along with recently, setting up a pharmacy - the services they provide are used by and intended for the residents of Mavrovouni RIC, Lesvos, the NGO staff and locals.

Thanks to your generous donations, we were able to fund [Crisis Management Associations](#) and their incredible work. To keep supporting projects like these you can buy the Emergency Medical Care item through the link below.

Abdoulaye, Anne and Radwan were recently invited to speak to graduate students at the [Harvard Kennedy School](#), the [Harvard T.H. Chan School of Public Health](#), the [Harvard Law School](#), as well as other schools within the Harvard network for the learning program established by Claude Bruderlein (of the [Centre of Competence on Humanitarian Negotiation - CCHN](#)) and his team - the focus of the course is considering the synergies between public health, emergency humanitarian assistance, migration's impact on climate and environmental hazards, urban conflict, human rights, and other relevant domains.

Our team were excited to share their experience working in the context of the camp here in Greece. Abdoulaye, CMA Field Coordinator: "As asylum seekers in some countries in Europe, we do not have access to universities, participating in such activities, allows us to learn and somehow provide our modest contribution by sharing our personal experience."

The contribution of our team was well received, Harun Khan - physician and student of this course: "It was an absolute pleasure to interview Anne and Abdoulaye from CMA about the complex reality of caring for vulnerable migrants on the ground in Lesvos. They provided an invaluable insight for researchers, like ourselves, at Harvard"

We believe in the importance of research and academic studies, and know that exchanging information and linking of field workers and researchers allows us to learn from each other and enriches our knowledge, therefore better support for those in need is provided.

Opportunities like this may also spark an interest in students who have the potential to contribute to the sector in a field-based role in the future, and we are thankful to have been a part of it 💙

2 years into the worldwide COVID-19 pandemic, the CMA team is still making adjustments to our operations to ensure that the safety of our patients and staff are prioritised and that government recommendations and restrictions are adhered to.

Our most recent challenge, in light of the Omicron wave which is now affecting Europe, has been a shortage of volunteer dentists being able to come to serve patients in our clinic - this has resulted in the clinic needing to be shut for a few weeks meaning that there is currently no emergency dental care being provided in the camp.

If you would like to volunteer with our team, please contact [HR@crisismanagementassociation.com](mailto:HR@crisismanagementassociation.com) to find out more 🤝🇬🇷

We would like to extend a huge thank you to the incredible volunteers who have been part of the team over the past few months.

We have had Jelmer and Sidrah working with the chronic team, Lucky who came to volunteer in the dental clinic for the second time and Meabh for the first, as well as a special thanks to Amra, who volunteered with the dental team from September until December and made a huge donation of materials to the clinic.

We are so grateful to the volunteers who lend their expertise and experience to our teams and are crucial in providing care to our patients.

If you are a medical professional and would like the chance to volunteer in Lesvos, reach out to us at [hr@crisismanagementassociation.com](mailto:hr@crisismanagementassociation.com) 🇬🇷🇺🇸🇬🇷

This year, we have seen massive changes in the setting here on Lesvos, and CMA is proud that we have adapted and been able to provide exceptional care to people seeking asylum and with refugee status here on the island.

Our highlights for the year include:

- the opening of a central pharmacy, in collaboration with other medical actors
- revamp of the dental clinic, including new chairs, dental units and an XRay machine... [Δείτε περισσότερα](#)

**2021 Snapshot report**

**Dental clinic**  
2 430 emergency dental patients treated

**Psychiatric care**  
920 psychiatric consultations

**Central Pharmacy**  
8 540 prescriptions dispensed from 10 different medical actors

**Chronic care**  
+3  
5 290 chronic consultations  
4 210 chronic follow-ups

**COLLABORATION |**

There are a number of patients who are prescribed medication through the psychiatric program facilitated by IRC - due to the nature of these drugs it is crucial that they are dispensed and monitored correctly to ensure that they are effective.

CMA and IRC have teamed up in order to ensure that this happens - IRC delivers the medication and prescriptions directly to the pharmacy in the camp, and CMA dispenses the medication to patients daily under the superv... [Δείτε περισσότερα](#)

DENTAL CLINIC UPGRADE]

With huge thanks to our amazing donors, Humanity Now and A-Dec, we have been able to upgrade the facilities in the CMA dental clinic - we have two brand new chairs and new cabinets. These not only brighten up the clinic, but also help our team to work more efficiently and make our patients more comfortable.

If you would like the opportunity to provide essential dental care in our new and improved clinic, please send us an email at [hr@crisismanagementassociation.com](mailto:hr@crisismanagementassociation.com)

Today, 10 December, we observe World Human Rights Day. The theme for this year is EQUALITY - Reducing inequalities, advancing human rights. As an organisation, CMA is committed to providing high quality healthcare, which is a human right, to people who may otherwise have difficulty accessing it. Equality is a core principle of what we, as an organisation, stand for. We are committed to providing equal opportunities to our employees regardless of gender, age, asylum status o... It is the time of year where the weather on Lesvos is becoming colder and colder ❄️ The waiting area of the Medical Reception Area is largely unprotected from the elements, while the chronic waiting area was recently equipped with heaters thanks to our friends at Humanity Now. We have re-started our tea project, where those waiting to be seen by doctors or nurses are able to help themselves to a warm drink. ☕

While it is sometimes difficult, our team is committed to providing... **Δείτε περισσότερα**
